1.0 Introduction

Human Rights and Development Organization (HUDO Centre) is a Sudanese non-governmental organization (NGO) based in Kampala and Juba South-Sudan. It is undertaking monitoring of the human rights situation in government controlled areas of South Kordufan (SK) and Blue Nile (BN) States of Sudan and the Internally Displaced People (IDPs) from these two states.

One of the major causes for the war in BN and SK to resume in 2011 is mistrust between the National congress party (NCP) which is the ruling party and Sudan People’s Liberation Movement/Army-North (SPLM/A–N). SPLM/A-N is the rebelling group that resumed fighting after the relative peace in the areas created by signing the Comprehensive Peace Agreement (CPA) in 2005. In response, the government of Sudan (GoS) represented by security agencies (National Intelligence and security services (NISS), Military Intelligence (MI), Popular Defense Forces (PDF), Rapid Support Force RSF, allied militias and police) carried out operations of apprehending people that oppose government. This operation caused a lot of human rights violations in the two areas.

Therefore, this Report highlights incidents of human rights violations and abuses that took place in the mentioned areas during the year of 2015. Due to security, geographical and logistical challenges, HUDO Centre documented verified incidents from places where monitors managed to reach, it consist of more than fifty cases of arbitrary arrest, more than twenty villages looted, burned and displaced, also it consist of some rape cases, cases of child rights violations and other human rights violation incidents. There is also an attached report on the situation of the IDPs that are mainly from SK and BN states. The field monitors observed, collected data/ information and together with Kampala office, victims and their relatives were interviewed.

The main purpose of this report is to bring to light the human rights violations and abuses taking place in SK and BN states so that the stakeholders like United Nations (UN) and international community could pressurize on the Government of Sudan to respect the international human rights and humanitarian laws.

1.1 About HUDO

HUDO Centre¹ is an independent, non-governmental, non-partisan and non-profit making organization based in Kampala-Uganda and Juba-South Sudan. As a rights-based organization it has two fold programming approach comprising both practical interventions as its ‘hardware’ component and the human rights dimension as an integral ‘software’ component under which, all projects are designed and implemented.

¹ For more information about HUDO please visit: http://www.hudocentre.org/EN/about.html
HUDO Centre works towards the promotion of human rights and dignity for vulnerable communities like the Internally Displaced Persons (IDPs), Refugees in camps in the neighboring country (South Sudan). HUDO also believes in achieving and promoting human welfare without racial, religious or gender discrimination.

HUDO Centre’s mission is to bring human rights to life by producing and shaping human rights tools, raising awareness and enforcing practices that empower people to improve their own lives and the lives of others.

HUDO’s strategic vision is to build a cohesive, civilized and fair society that is stronger where all human beings are equally valued, can fully participate socially, have equal chances to succeed, treated with dignity and respect.

HUDO is currently undertaking monitoring of the human rights situation in government controlled areas of South Kordufan (SK), Blue Nile (BN) States and the IDPs from the two states. Together with partners, HUDO Centre trains human rights monitors based in these areas (SK and BN) in order to improve/strengthen their capacity to monitor, document, report and research on human rights violations and abuses taking place. HUDO is also monitoring court processes in order to assess the principles of due diligence and fair trial.

1.2 Background of the study

The Conflict in Sudan predate back to historical injustices, social imbalance, religion, political and racial discrimination. The first civil war started on August 1955 a year before independence by the Southern Sudanese\(^2\). The conflict erupted due to mistrust which assured later in underdevelopment and discrimination against the Southern region by the Central Government. The region is mostly inhabited by many different ethnic groups\(^3\). The conflict was between the Central Government and the rebel group/ Anya Nya\(^4\). The first war ended in 1972 by signing Addis Ababa agreement\(^5\), which brought relative peace until 1983 when the Sudan Peoples’ Liberation Movement/Army (SPLM/ A)\(^6\) was formed. One of the major reasons SPLM/A fought for, is the dishonoring the Addis Ababa Agreement by the Central Government.

Other regions and individuals from Northern Sudan also joined the SPLM/A for the reasons of underdevelopment and discrimination. In 1985 South Kordufan/ Nuba

\(^4\) Anya Nya (1); was the first group rebelled against the Central Government established on 1963 based on Tourit Garrison carried out a mutiny in 1955

Anya Nya (2) was a rebirth of Anya Nya (1). Those two Anya Nyas carried out the first war (1955 - 1972).

\(^6\) This agreement was signed on 1972 between Joseph Lagu, the Head of Anya Nya 2 and Numeiri, Sudan President by then.

Mountains joined SPLM/A as well as Blue Nile which joined in late 1980s. The war continued until 2005 when the comprehensive peace agreement (CPA) was signed.

After the CPA, the two states of South Kordufan (SK) and Blue Nile (BN) enjoyed relative peace up to 2011 when South Sudan declared its independence as a result of the Referendum on the right to self-determination, which was enshrined in the CPA and guaranteed by the Interim National Constitution 2005. The cessation of South Sudan divided the SPLM/A into two. One Part in South Sudan and the other remained in Sudan and subsequently renamed as Sudan Peoples’ Liberation Movement/Army-North (SPLM/ A-N).

The conflict broke out in South Kordufan state in 2011, due to many factors. There was a historical lack of trust between the two parties (SPLM and NCP), tension over the results of the state’s complementary elections and the expected exercise of the Popular Consultation which constituted in the (CPA). The Government of Sudan (GoS) attempted to disarm the SPLA soldiers in SK but the disarmament was opposed by the SPLM leadership hence the conflict.

In June 2011 the president of Sudan (Omar Albashir) declared the state of emergency in SK under the Emergency Act of 1998. The State of Emergency also had been declared in BN in September 2011. The state of emergency had favored the security officials’ to violate the rights of civilians. National Intelligence and Security services (NISS) and Military Intelligence (MI) practiced to arrest civilians arbitrarily accusing them of associating with the SPLA-N. Many people in villages in the two states were forced by Sudan Armed Force (SAF) and its allied militias to evacuate or burned.

In September 2011 the war spread to Blue Nile state due to the tension created by the conflict in SK. The war broke out in Blue Nile after president Omar Al-Bashir had rejected the implementation of Nafie Agar agreement which was signed on 29th June 2011. Nevertheless, on 22nd August 2011 Al-Bashir and Agar held a meeting in

Addis Ababa hosted by Meles Zenawi Ethiopian former prime minister. The meeting ended in disagreements.

The security agencies are violating human rights and aggressively dealing with whoever opposes the government. Therefore, human rights situation deteriorated, particularly in conflict areas of SK and BN and areas where the internally displaced persons (IDPs) were.

1.3.0 Aim

This report aims to bring to light the human rights violations and abuses taking place in South Kordufan and Blue Nile states of Sudan (Jan-Dec 2015) and its consequences in order to draw the attention of national, regional and international community and come up with specific suggestions on how to improve the human rights situation.

1.3.1 Objectives

- To furnish the United Nations' Human Rights council, and special rapporteur on Sudan, Amnesty International (AI), Human Rights Watch (HRW), the Diplomatic Missions in Sudan and others with information, in order to enhance their efforts to pressurize the Government of Sudan to respect human rights.
- To strengthen the Sudanese advocacy groups by providing them with accurate information to use in their lobbying and to engage more Sudanese Civil Society in the human rights advocacy process.
- To assist in lobbying the United Nations Security Council (UNSC) and African Union (AU) to urge the Government of Sudan to lift the state of emergency in South Kordufan and Blue Nile states and to contribute in stopping the violation and abuses.

1.4 Methodology

HUDO centre had established its own network consisting of field monitors and focal persons to gather information within the conflict zone. This network spreads geographically in both SK and BN since it was not possible to have easy access to the whole area.

HUDO Centre has a reporting panel that examines information from the field. The panel used analytical methods to sort the information in order to arrive at accurate findings that should be included in the report.

For the purposes of consolidating this report HUDO Centre also used the following methods in collecting data/information;

1. HUDO centre developed data/information forms
2. Conducted interviews with victims and relatives
3. Analyzed Media reports
4. Verified comments from professionals (Lawyers, Doctors…etc)
5. Scrutinized official declarations

1.5 Scope of the Study

Sudan is an African country bordering Egypt and Libya to the North, Red sea, Eritrea and Ethiopia to the East, South Sudan to the South and Central Africa and Chad to the West. It consists of eighteen (18) states including South Kordufan (SK) and Blue Nile (BN). Both SK and BN states cover most of the southern border, neighboring South Sudan. This report covers the two states of SK and BN where HUDO Centre focuses, as well as the situation of IDPs scattered in other states.

South Kordufan/Nuba Mountains state is mainly inhabited by Nuba ethnic groups among other African groups\(^\text{16}\) who are mostly farmers. There are also settlers from other ethnicities (of the Arabs origins) most of them are traders or pastoralists. In April 2013, the Western part of the state which is inhabited by Kasha, Dajo and other ethnic

\(^{16}\) Darfurian tribes and Fulani, Hausa, Barnu among others...etc.
groups from Nuba Mountains were annexed to the newly created West Kordofan State\(^\text{17}\).

South Kordofan State consists of 17 localities. Some are located under SPLA-N control territories and others are within the State controlled areas. This report covers the following towns and villages under the government control;

Kadogli town in Kadogli Locality; Talodi town in Talodi Locality; Rashad town, Umbrambeta, Elfaid Umabdalla, khor Eldelaib, Al Ghadeer, Tomi, Elmansour and Eljebailat in Rashad Locality; Al-Abbasiya town, Terri, Tabassa and Mabsut in Al-Abbasiya Locality; Abu-Kershola town and Cham Chaka in Abu Kershola Locality; Dilling town and Kalara in Dilling Locality as well as Kasha village of Alsonout Locality of West Kordofan State.

Blue Nile State is mainly occupied by Funj, Ingasana, Broun tribes among other African Ethnicities as well as other groups of Arab-origin. The state is made up of six (6) localities controlled by the state with the presence of SPLA-N. This report focuses on the following towns and villages under the government control;

\(^{17}\) WK State was created in 1990s and dissolved by the CPA in 2005.
Damazin town, Madinah (8, 9, 10), Madeim Masaleet, and Ganees Westin Damazin Locality; Agadi located in Tadamon Locality; Madeim Aljabel, Deirang, Khor Maganza, Fadimia, Keglok, Bagees Ashaheed Afandi, and Wad Abouk placed in Bau Locality; Geli, Fuj, Dakilog, Gambarde and Abigo located in Kurmuk Locality; Daim Saad, Abrondu, Bakori and Fazogli which is located in Gissan Locality; Roseires, Alazaza, Shanisha, Umdarfa, Khor Mago and Um Barid located in Roseires Locality.
1.6 Statement of the problem

Reports from HUDO Centre’s field monitors and other sources indicate that the human rights situation in SK and BN states had deteriorated since the war broke-out in 2011. The subsequent announcement of the State of Emergency by president of Sudan in 2011 also exaggerated the situation. It became worse after the declaration of the offensive summer/military\textsuperscript{18} operation by Sudan Ministry of defense in 2014. Nevertheless there was a military campaign carried out by the SPLA-N in the two states meant to disrupt the March-April 2015 elections\textsuperscript{19}.

The human rights situation had worsened because of many arbitrary arrests in both states of SK and BN. Many civilians were frequently arrested and accused of being affiliated or associating with SPLA/N. These arrests were carried out by the National Intelligence and Security Services (NISS), Military Intelligence (MI) and the allied government militias. Among those under detention are women and children.

The military presence of Sudan Armed Forces (SAF) and its associated militias like the Rapid Support Force (RSF) and Popular Defense Force (PDF) together with the frequent attacks by the SPLA-N in the two states had forced many people to run away from their villages. Most of the people vacated their villages as a result of instructions from SAF or the status of insecurity. The villages were largely destroyed and people could not return hence the displacement.

According to field monitors, around nine (12) villages in SK and more than ten (10) villages in BN were burnt down and people were displaced. The security (SAF) ordered people to vacate the villages within two hours. People lost property as they rushed to save their lives. Security forces could not allow the displaced persons to erect settlement camps or have access to humanitarian aid.

The violated rights are as follows:

1. Right to life
2. Security of person
3. Right to fair trial
4. Child Rights
5. Rights of women and girls
6. Right to freedom of movement and residence
7. Rights of civilians within conflict areas
8. Right of Worship

1.7 Limitation and Challenges

1. The imposed State of Emergency in the two states restricts the movement of monitors. This directly affected the process and time taken in collecting data.
2. The continuous suspicion from intelligence (NISS and MI) whereby any new comers in towns or anybody talking about rights was watched. They conducted many check points which hindered the movement of monitors within the two states.
3. Insecurity due to the ongoing conflict between government forces and the SPLA-N.
4. Poor means of transport whereby roads are not very accessible and most of them are seasonal.
5. Some of the victims and witnesses do not easily reveal information due to security threats. According to interviews that were conducted by HUDO monitors, some of the victims or the witnesses expressed their fears from security agencies.
6. The number of monitors was not enough to cover the incidents in the two states easily.

2.0 Arbitrary Arrest:

Over-all description;

HUDO Centre observed the situation through their monitors and other focal persons. The arbitrary arrests jointly carried out by NISS, MI and the government associated militias were mainly unlawful. Many people arrested were unarmed civilians from different villages and towns, were accused of associating or supporting the SPLA-N. They arrest anybody irrespective of age or sex/gender and treat the detainees inhumanly. In the following section we illustrate the detailed findings on how the arbitrary arrests were carried out in SK and BN.

2.0.1 Arbitrary Arrest in South Kordufan

On Feb. 2nd 2015, a group of Military Intelligence (MI) soldiers from Al Abbasiya town arrested Adam Essa Agoumy, 35 years, who is a member of SPLM-N. He was detained from his village called Mabsout. The MI soldiers came in three vehicles (land cruiser) when they reached Mabsout, they immediately shot firing in the air before arresting him. He was later transported to SAF headquarter in El Obeid by then. Later they transferred him to Al Abbasiya and filed a criminal case against him, accusing him under article (130) Intentional murder according to Sudan criminal Act 1991. They accused him that he killed a civilian at Moreib village in 2011. The defendant’s lawyer objected the accusation. However, the procedures seem to prove unfair trial since the Judge did not give the defendant’s lawyer enough time for his defense argument. He also refused to
hear any testimony from the defendant’s witnesses. On August 2015, he was charged to death sentences. Days after his lawyer died in suspicious criminal event. Up to date no appeal done in his case yet, the appeal constituted period is over.

On March 7th 2015, NISS in Talodi town arrested Mohamed Alfadil Abulnour and Hamid Mousa who are members of the Popular Committee of Abdul Fadeel Almaz neighborhood in Talodi. They were taken in a vehicle without number plate. NISS had earlier tried to recruit them to the National Congress Party (NCP) to become members, but the two men objected. Our sources indicate that it was alleged that NISS started threatening them that joining of NCP was mandatory for saving their lives. They obeyed under pressure in detention and after release attended NCP meeting on March 10th 2015.

On March 26th 2015, a group of MI soldiers arrested four women from Dilling Market. They were coming from Kalara village for shopping. Their names are indicated below;

1. Amnah Mirga 70 years
2. Ishraga Husse in 22 years
3. Noura Dawoud 65 years
4. Taghawa Irin 65 years

They were apprehended at SAF Head Quarters in Dilling town. They were accused of supplying the SPLA-N with items they were shopping. Relatives of the four women tried to bail them out but MI refused. The four women were later released on April 26th, 2015 on condition that they should not move out of Dilling town for two months.

On April 29th 2015, Rapid Support Force (RSF) supported by SAF attacked Kasha village of the Nuba Mountains/ West Kordofan State. According to HUDO Centre’s sources, one person was killed about six (6) people were severely injured, twelve (12) were arrested and about eight shops around the village were robbed. The details are listed below;

B. The injured:
   1. Faisal Mohamed Zakariya
   2. Mousa Abdul Gadir
   3. Malik Hashim Sultan

2.3 Civilians in conflict Areas

Kadogli Incident

The arrival of Rapid Support force on opening of the year 2015 in Kadogli (the capital of South Kordufan State) caused a lot of anxiety because of the violence they cause.

Looting at Elneem Market in Kadogli downtown;

On Thursday 5th Feb-2015 Rapid Support force (RSF) attacked and looted Elneem Market in Kadogli downtown. According to the eye witness, at least thirty (30) shops were looted. In response, the local Public Defense Force (PDF) reacted in defense of shop owners. As a result, there was a fight whereby one lady was killed, number of civilians was severely injured and five (5) soldiers from the two fighting groups/forces were killed.

After this incidence, the leadership of Kadogli commercial chamber announced the closure of the market because of insecurity. The security situation in Kadguli scared many people and others fled the town particularly after the attack on the market.

31 Neggers is slang mean Negros. It is a group of teenagers who wear a stylish low west pants. They are mainly from African origins.
On Friday 6th-Feb-2015) while at the mosque, the Kadogli governor (Abuelbashar Abduelgadir) informed Kadogli residents that government had set up a police committee to compute the losses and looted items. The government will ensure that all items looted by SRF are brought back to owners. Up to then no reparation or compensations paid.

2.4 Forced Displacement

Residents from different villages suffered the attacks, looting, burning and displacement from security agencies (SAF and the governmental allied militias/ PDF) who gave them only two hours to evacuate.

2.4.1 Forced Displacement in South Kordufan

2.4.1.1 Al Ghadeer Village

On January 4th 2015, Al Ghadeer\textsuperscript{32} village (inhabited mainly by Tagali Tribe), 22 kilometers north-west of Al Abbasiya town was burnt.

\textsuperscript{32}It is an open flat area used to be occupied by nomads during rainy season.
About one hundred fifty (150) armed soldiers on eighteen (18) Land Cruisers arrived at the village in the afternoon. They were wearing two different kinds of uniform (SAF and PDF uniforms). The troops were commanded by SAF Officers; Maj. Azmi and Capt. Ali as well as Al Abbasiya District’s PDF Commander Yagoub Amein Elbushra. They parked at the compound of the Paramount Chief Farah Ibrahim Keuair. Maj. Azmi briefed him that; the government decided to erase the village because “you Tagali tribe have some young men who joined SPLA-N and you failed to bring them back. Your village has been used in passing on supplies to the rebels”. When the Chief tried to respond, some soldiers fired their guns and people around panicked and started to run.

Immediately the soldiers started to set fire on the village. Approximately eighty five (85) houses were burnt and about 600 people became homeless. Majority fled to Tabassa village and others continued to Um Rawaba town in North Kordufan State. Three (3) people were injured and admitted at Al Abbasiya Hospital and discharged after five weeks. 1. Abdul Mutaalab Tebin.

Addressing the public at Al Abbasiya Alhurriya (Freedom) Squire on March 6th 2015, the Former Governor of SK State Adam Alfaki said: “we do not want any village west of Al Abbasiya because its people are rebels. From today on; commanders of SAF, NISS and PDF if you find anybody heading west with a kilo of sugar kill him. Tomorrow the Air Force and Artillery shall clean the land. We do not want an ant there. Any person who does not leave is considered as a rebel’. On the second day 7th March, Air Force and Artillery bombarded the area as people fled. As a result, four pregnant women from Kalinda village had miscarriages. Their names are;

1. Amnah Adam Idris, 34 years.
2. Sarah Abdul Rahman, 21 years.

• Some went to Almoileh 18 kilometers north of Al Abbasiya, a drought stricken land that lacks water resources. Water is brought by tankers from Al Abbasiya. Civilians preferred to camp in that area because it is close to their farms.
• Others camped in Aldamra 7 km North West of Al Abbasiya (in Schools and under trees around the farms). Aldamra has only one borehole, which is not enough for inhabitants, IDPs and animals.
• Others went to Tabassa, Alsesaban, Kamasor, Almadeim, Aldadori and Almadfak.

2.3.2 Forced Displacement in Blue Nile

On April 3rd, 2015 SPLA-N forces gathered in Fuj area along the border with South Sudan. On 5th April the troops captured the Chrome Mining site in Jam village. They confiscated the tools, machinery and a fuel tank from the mining site and they also arrested the site’s guards. The same troops attacked the Police Station, SAF base and NISS Office in Jam. On April 6th SPLA-N attacked Diering area of Bau Locality and destroyed the Security premises. The troops left Diering leaving behind many civilians injured and others dead (Nasr Aldin Khamis Hanes was one of the dead civilians).
On April 8\textsuperscript{th} 2015 SPLA-N attacked Madinah 10, on 10 April 2015 SAF reacted on the SPLA-N’s attacks on Madinah 10 by burning Madeim Aljabel Village of Bau Locality (14 kilometers south of Damazin). The SAF justified the burning by accusing the residents of the area that they cooperate with the SPLA-N. According to the local leaders, the area was inhabited by about 547 families mostly from Ingasana and Masaleet tribes as well as IDPs\textsuperscript{33} from Sabil, Khor Maganza (Maganza) and Fadima villages. Some of the displaced persons from Madeim Aljabel relocated to Madeim Masaleet village while others remained in the wilderness. Later on May 9\textsuperscript{th} 2015 the Government of Blue Nile State forced them to move to Madeim Masaleet to Roseires Locality.

On April 13\textsuperscript{th} 2015, SPLA-N attacked Madinah 10 for the second time and this attack displaced almost all the inhabitants in town to Madinah 8 and Madinah 9. Some went up to Damazin and others preferred to follow the Nile to their original villages.

On May 11\textsuperscript{th} 2015, SAF gave the civilians of Khor Maganza village in Bau Locality two hours to evacuate. About 1500 families mostly from Ingasana Tribe had to leave. Some immediately left while others stayed and watched their houses and shops burn. Those who remained had stayed in the open area for three days and later went to Um Barid north of Roseires. Those who left earlier settled in Roseires, Alazaza and Shanisha villages. On the same day (May 11\textsuperscript{th} 2015) citizens of Bagees village were evacuated and transported by SAF to Alshaheed Afandi village in Bau Locality. Blue Nile State Humanitarian Commissioner visited them on the following day but, no services were provided.

\textsuperscript{33} Those IDPs fled from the said villages on late 2011 when their villages were burned by SAF immediate after war started in Blue Nile
On 18th May 2015, for the same allegations of cooperating with SPLA-N, SAF instructed civilians of the following villages (see annex 2) to vacate/leave within two hours;

1. Madeim Masaleet in Bau Locality
2. Gambarda in Kurmuk Locality
3. Deglok in Bau Locality
4. Abigo in Kurmok Locality.

Some residents of the above mentioned villages who were mainly from Ingasana tribe have moved to Damazin, Roseires and the neighboring state of Sinar.

On June 12th 2015, citizens of Wad Abouk village of Bau Locality fled to Boutof Altadamon locality, Geli and to the forests between Wad Abouk and Geli. That was a result of the fighting between SAF and SPLA-N.

2.5 Denial of Humanitarian Aid

NISS denied a medical team organized by Sudanese national NGO to enter BN and access the IDPs locations

On 26th Nov 2015 evening hours, a medical team organized by an NGO (Kuluna Geium) from Khartoum arrived at Damazin town and was stopped by NISS officers at the check point. The medical team had scheduled to visit the IDPs located in the following areas;

- North Roseries (Shansha area and Wad Afudi)
- East Roseries (Azaza and other villages)
- Roseries (Alwehda neighborhood)
- Damazin (Ban Gadeid and Salha neighborhoods)
- Shaheed Afandi
- Wad Elmahi village

The targeted IDPs that were meant to be served in the said areas are about (675) families.
The team consisted of 75 people including five (5) consultants/Doctors, ten (10) lab technicians, five (5) medical practitioners, ten (10) medical students (in their 5th and 6th years of study) among others with the assortment of drugs. They were not allowed to go beyond the check point and they stayed there for the whole night.

In the morning of 27th Nov 2015 at 9:00AM, NISS officers ordered them to return (go back) to Khartoum. The reason NISS gave for denying them access to IDPs was that the NGO did not inform them (NISS) before their departure from Khartoum.

NOTE; The managers of the NGO however indicate that, they had made prior arrangements with the concerned ministries of Health and Humanitarian Affairs before coming to Damazin.

3.0 Recommendation

- Demand an immediate end to forced displacement of people from their villages.
- Stop the human rights violations and abuses by the fighting groups.

- Establish an independent inquiry to investigate the violations and abuses committed in SK and BN states since June 2011.
- Urge the Sudanese civil society to actively engage in human rights advocacy.

المشكلات:
مشكلة توفير المياه للمهجرين:
لقد ذكرنا سابقاً أن المهجين تم إياوهم في كل من المويمح والدامرة ومدينة العباسية تقليديا وتسهلاً وسلامة والمعرور أن الدارة بها بئر بطعمية غافلة ولكننا لا نرى بالغرض لكيهفة المهجين إذا يتم توفير الماء لهم من المدينة بواسطة ترلات وملحقات أخرى.

وأما منطقة مويلح فإنها مشكلة حقيقية تمثل في أن المنطقة ليس بها بئر إلّا يعتقد الناس هناك على المشيش وهناك محاولات لإدخال بئر تابع لشركات الطرق وتوفير طعمية غافلة لها وتوفير الماء لليهود المهجين.

مشكلة الغذاء:

قامت منظمة الغذاء العالمي بصرف كميات من الذرة للمهجين المحصورين لمدة خمسة عشر يوماً على أن يتم صرف حصة الخريف كاملة في شهر أبريل للمهجين القادم والجدد.

في الأيام الأولى للتهجير قام ديوان الزكاة بتوفير الذرة يومياً للمهجين في المنطقة الدامرة والمويمح وذلك بالتضامن مع الغرفة التجارية ومدينة العباسية في وقف شكل الجمع لوحة كمالت فيها الإدوار والجهد لاعانة أهليهم.

لا ان المشكلة تتضرر في انعدام المواد التموينية المكملة للوجبة الغذائية.

مشكلة الصحة:

نظر مشكلة الصحة للمهجين وهم لا يمكنغفالهم نسبة لأنهم يعيشون في ظرف استثنائي لا تتوافر فيه المطموبات الصحية المعروفة . إذ أن حداً كبيراً من الناس يسكنون في منطقة صغيرة محدودة وإذا لم يتم التدخل في هذا مجتمع قابل لانتشار الأمراض، فلا بد من تدخل الصحة الوقائية والعلاجية لتدارك الأمر قبل استفحاله.

لوجود الأطفال والنساء والرضع والشيوخ والمرضى وقد وفرت بعض المنظمات الادويّة، وهناك لجنة صحية تتابع الامر عن كثب إلا أن هناك مشكلة المراحيض تحتاج لتقنيات الوصول إلى الأراضي المهجورة ومطموب تدخل المنظمات لتوفير مكملات المراحيض من قاعة ومنشئ.

المشكلات العالية:

1. مشكلة توفير المياه للمهجين.
2. مشكلة المراحيض للمهجين.
3. مشكلة توفير بقية مطموبات الوجبة (الزيت ـ البصل ـ السكالد ـ الأذار).
4. مشكلة تمييز للمهجين (شرطة).

الاقتراحات والحلول:

1. استجابة عدد كاف من دافلات المياه.
2. صيانة الأبار والانابيب الغازية.
3. توفير موانع لحفظ المياه بمناطق تواجد للمهجين.
4. توفير مكملات المراحيض وحالة الشروط بالقيام بحفر المراحيض في شكل تفاني.
5. توفير بقية مطموبات الوجبة.
6. توفير شرطة رسمية بأماكن تواجد للميجرين.

7. استقطاب المال من أبناء نجلي بالعاصمة القومية ومدن السودان الأخرى ومن خارج السودان للمساعدة مع اللجان المعنيه في تقديم خدمات أفضل للميجرين.

8. التواصل مع الإدارة الاهلية والجهات الرسمية والتنسيق بينهما للوصول إلى حل لهذه الأزمة قبل حلول فصل الخريف.

9. عكس حال للميجرين اعلاماً واستقطاب مزيد من الدعم لهم والاسراع بعملية العودة إلى قراهم.

10. تفعيل دور منظماتنا المحلية لعمل شراكات مع المنظمات الدولية والعالمية والوطنية للقيام بنشاط لمساعدة الميجرين.

11. الاحتياط والاستعداد لتقديم خدمات التعليم فقد تتأخر العودة إلى ما بعد فتح المدارس.

12. الاهتمام برامج الاستشارة والتنمية الدينية والصحية والثقافية الخاصة للنساء والعشائر والأطفال.

13. حماية قرى الميجرين من النهب والحرق لحين عودة أهلها إليها.

14. مناشدة الحكومة بالاهتمام بالأزمة ومعالجتها قبل حلول فصل الخريف وذلك لتفادي مشاكل التهجير.

ختاماً:

الشكر لصندوق دعم السلام والتنمية بولاية جنوب كردفان لاهتمامه الفاعل بهذه الأزمة ونأمل أن يتواصل الجهد بالتنسيق مع الحكومة للخروج بأزمة جنوب كردفان إلى سلام دائم.
